RAN JACOB IS AN EMERGING ABSTRACT painter and drawer currently residing in Kjipuktuk — (Halifax, NS).

As a life-long student of visual arts, Jacob most recently received his BA in Fine Arts from NSCAD University in Halifax, Nova Scotia.

Raised in Kingston, Ontario, Ran is looking forward to exhibiting his latest body of work back in the city of his youth and beloved hometown.

STUDIO22 FINE ART IS THRILLED TO INTRODUCE emerging artist and abstract painter, RAN JACOB.

This latest body of work has been a labor of love for the artist for the past two years.

The intensely saturated works that comprise this new exhibit are intended as humorous impressions of the multifaceted nature of our collective lived experiences and the relationships created throughout.

T**HROUGH SUBTLE WINKS** or heavy-handed finger pointing, it is my intention to reflect and cultivate in my paintings (*THIS TIME — WITH FEELING*) the same terrible, anxious beauty that I believe exists in all things.

The contrasting duality of existence is precisely what life and, in turn, my paintings are all about. There will always be bad times, they are just as valuable as the good ones.
